Profile

Junior Web & Flutter Developer Passionate developer with hands-on experience in **web and mobile application development**. Skilled in building modern **web apps with React, Node.js, Express.js and MongoDB** as well as **mobile apps with Flutter & Firebase**. Strong knowledge of **UI design, scalable architectures, and clean coding principles**. Excited to contribute my skills to a growing company.

WORK EXPERIENCE

Present

Islamabad Pakistan

Junior MERN Stack Developer

- Developed **responsive and dynamic web applications** using **React.js, Tailwind CSS, and modern JavaScript (ES6+)**, ensuring cross-browser compatibility.
- Designed and implemented **RESTful APIs** with **Node.js & Express.js**, enabling seamless communication between frontend and backend systems.
- Built and managed **MongoDB databases**, optimizing schema design for efficient data storage and retrieval.
- Enhanced **UI/UX** through clean, user-focused designs, improving overall engagement and usability.

07/2024 – 05/2025

Islamabad

Junior App Developer

Wembrange Solutions (SMC-Private) Limited — Islamabad, Pakistan

Achievements/Tasks

- Built and maintained **Flutter applications** with clean and scalable UI design.
- Integrated **Firebase services** (Firestore, Authentication, Storage) for real-time data management.
- Worked on **API integration**, image picking (camera & gallery), and feedback systems.
- Implemented **form validation and multi-screen navigation** for improved user experience.
- Applied **state management** using **Provider** and **GetX** for better performance.
- Followed **Clean Code Architecture (MVC, MVVM)** for maintainable and structured code.
- Used **Git/GitHub** for version control and team collaboration.

06/2023 –

08/01/2001

Islamabad

Graphic Designing Intern

K-Links (Real Estate)

Achievements/Tasks

- Created marketing materials and social media graphics using Adobe Photoshop. Assisted in branding and content design for various real estate projects. Created marketing materials and social media graphics to support branding, using Photoshop.

PERSONAL PROJECTS

Afriva Web Application

MERN Stack

- Built a **full-stack web application** using **MongoDB, Express.js, React.js, and Node.js (MERN)**.
- Implemented **user authentication, dynamic routing, and data management**.
- Designed a **responsive UI** with **React.js and Tailwind CSS**.
- Integrated **RESTful APIs** for real-time data handling.
- Deployed both **frontend and backend on Vercel**.

- GitHub:
Frontend: <https://github.com/umar9991/afriya-frontend> 
Backend: <https://github.com/umar9991/afriya-backend> 

Afriva Mobile Application

Flutter, GetX

- Developed a **mobile application frontend** following **Clean Code Architecture** (presentation, domain, data layers).
- Implemented **state management** using **GetX** for scalable and maintainable code.
- Designed a **responsive UI** with reusable widgets and custom components.
- Applied **SOLID principles and MVVM pattern** to ensure clean and testable code.

Car Sight (Flutter + Firebase App)

- A vehicle evaluation app allowing users to capture images of cars and get price predictions based on model, year, and condition.

Integrated Firebase Firestore for data storage & user feedback. Used Google Vision API for car image analysis. Implemented custom UI with Material Design principles.

SKILLS

Web Development

Mern Stack

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, MongoDB, RESTful API Development

Flutter

Dart State Management (GetX, Provider)

Firebase (Auth, Firestore, Storage, Functions)

Supabase & API Integration

Software Architecture (MVVM, MVC, Clean Code, SOLID Principles)

Java OOP & GUI Development (Java Swing/FX), MySQL, PostgreSQL,

Graphic Designing Git & GitHub

EDUCATION

12/2023 – Present

Study Program

Iqra University H9 Islamabad

Courses

- Bachelors in Computer Science
